

***Warehousing  
and  
Distribution  
Courses***

# Introduction

LCP offer an extensive range of warehousing and distribution qualifications. These qualifications recognise the skills and competencies required of staff in the warehouse and storage workplace. Any of these qualifications can help develop a career in warehousing, including operating equipment and safety at work, processing orders, team leadership and managing the receipt and dispatch of goods. These qualifications are for learners currently working in the sector and available to those who do not currently work in the industry but would like to gain some of the skills needed.

Our qualifications are assessed by looking at evidence of the learner's work. This can include observation, questions, professional discussion, IT assignments and looking at the work they have produced.

To gain a Vocational Qualification, you need to show you've got a set of skills. You work with LCP to review your current skills and find the best way to gain new ones, perhaps by trying new things at work, or by studying.

LCP take a holistic approach to learning, meaning you won't have to repeat tasks to satisfy the qualification criterion. We will assess your current role, prior experience and future aspirations and tailor additional units to suit yours and your employer's requirements.

- **Level 1**  
Level 1 will suit you if you are new to warehousing and storage and would like to start, or have recently started, working in this area. You want to get your skills recognised.
- **Level 2**  
Level 2 will suit you if you are a warehouse or storage operative and want to have your skills recognised by a national qualification. This could also form part of an apprenticeship.
- **Level 3**  
Level 3 is ideal if you are working as a Team Leader within a warehouse operation, in addition to your normal warehouse operation activities.

# Level I Courses

Course Name and Code	Credit Value
6016203X - Award in Warehousing and Storage (RQF)	12
